

## The Official Logos of the College Bowl Series

*The bold logos of the College Bowl Series of Miniature Football*

By REGINALD RUTLEDGE

When Lynn “Weirdwolf” Schmidt, master graphic designer was asked to come up with something that captured the essence of the CBSMF, he was given just a few ideas to work with and what he came up with was this new exciting design that will highlight what the CBSMF will do.

The map of the continental United States represents the eight conferences; the

PAC 10, SWC, Big 12, Big 10, Big East, ACC, SEC, and SWAC. The figure is symbolic of the type of action pose we want to show will give the league the fortitude to be determined to carry on in spite of obstacles that may come its way.

The CBSMF moniker is simply the label of the College Bowl Series of Miniature Football that brings all the conferences

together that play under the Shootout Rules system.

The vibrant colors of blue and red will be the essence of the creativity which will be shown by the many props that the CBSMF will enjoy such as realistic stadiums for championship play, an all-inclusive figures ranging from custom figures to traditional poses, a fast-paced style of play where efficiency is of the utmost importance, and visionary coaches who

enjoy playing under this style of play.

There are two distinct logos, one that will be used in league letterhead and for newsletters and the crystal trophy logo that shows a symbolic trophy of the CBSMF Champion.

Each logo will be used interchangeably with commissioners of each conference having access to the logo as well as school presidents/coaches. All-important messages will be sent either by online or through regular mail with this logo attached.

The excitement and bold fresh look is what Lynn “Weirdwolf” thrives at. Although he saw these as examples, right away, we knew it would be brilliant work!

We look for this logo to become the essence of what makes our league go! So now, we are official based on this logo and with the type of energy and flair that each of these logos exhibit, we’ve got great things in store!

We thank Lynn “Weirdwolf” Schmidt for his tireless efforts in helping making these official logos ones that we will take some pride in.
